Annex 1 - Flowchart of the logistic regression algorithm (Lei et al., 2016)

Start

Training data and testing
data

Computing the
regression coefficients
of training data

By the Sigmoid function

Finding the relationship
between the training
data and the testing data

The object's positions

End

☐ Inputs

☐ Outputs
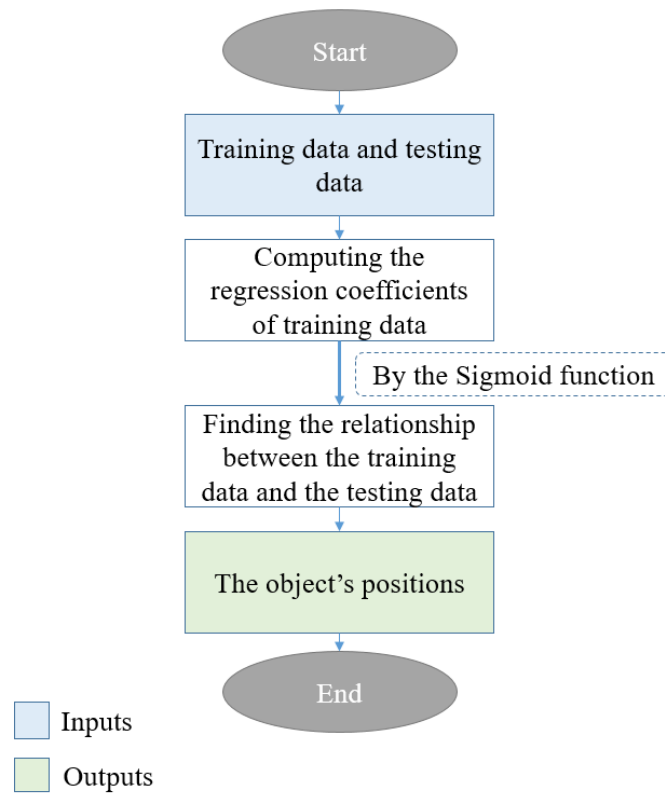

Lei, Q., Lv, H., Zhang, H., & Sun, H. (2016). *Logistic Regression-Based Device-Free Localization in Changeable Environments*. 1062–1066.
